

Families,

Our martial arts school stresses the values of discipline and self-control, not only in the dojo, but through all aspects of our students' lives. We work to develop well rounded students throughout the community. If our students are not meeting our standards both inside and outside the dojo, the current promotion will be withheld until they have a satisfactory report.

Our student \_\_\_\_\_ is intending to promote to their next level. As instructors we would like to know your perception of their training.

I look forward to your feedback,

*Herbert E. Blue*
